B) Detail Report

Introduction

The Library Department organized a DELNET Orientation Programme for First Year students on 04/12/2025 and for staff on 09/12/2025. The purpose of this orientation was to create awareness about DELNET resources and provide guidance on accessing various academic materials available through the DELNET platform.

Objectives of the Programme

- To introduce DELNET services and academic support features.
- To provide knowledge about online search of books and journals.
- To demonstrate access to e-resources and inter-library loan facilities.

Programme Details

Dr. S. L. Jadhav conducted the session and explained in detail the concept of DELNET (Developing Library Network), its membership benefits, and its national-level resource sharing network. Students were informed about the Digital Union Catalogue, availability of e-books, journal articles, theses and dissertations, and how these resources can support their academic development. A hands-on practical demonstration was conducted to help students learn how to access resources online. The following points were covered:

- Login and Access Method: Students & staff were shown how to visit the DELNET website and log in using institutional access.
- Searching Library Resources: Demonstration of searching books, journal articles, and dissertations using OPAC through title, author, subject, and keyword options.
- Accessing Full-Text Content: Students & staff were shown how to view and download available e-books and e-journals.
- Inter-Library Loan Requests: Procedure for requesting books not available in the college library was shown.
- Students actively performed sample searches and downloaded resources, which increased their confidence in using DELNET independently.

The Library Department plans to continue such orientation activities to strengthen digital literacy and promote resource utilization among students. The session enhanced their ability to locate study material beyond the college library.
